CHAT WITH SUPPORT

BU77

You will now be taken to the Support team chat view. Please communicate as you would with any other user.

Some useful debugging information has been copied on the System Clipboard for you.

When you are typing a message to the support team member, you can use the system "Paste" command as you normally use to paste the useful information that you can send to the support team (you can review and edit it as necessary, of course).

GOT IT! 😀

UZZPRO

In support chat window type your query and wait it will be answered by support at the earliest.

Support responded with details about your query. Steps to be taken on App
